Contents of Volume 26

Number 1, Spring 1999

Endothelial damage by bubbles in the pulmonary artery of the pig
V. Nossum, S. Koteng, and *A. O. Brubakk* 1
Detection of viable myocardium: comparison of dobutamine echocardiography and echocardiographyafter hyperbaric oxygenation
J. Veleska, M. Mates, and *V. Doležal* 9
Arterial baroreflex control during mild-to-moderate nitrous oxide narcosis
A. Östlund, P. Sundblad, A. K. Demetriades, and *D. Linnarsson* 15
Effect of hyperbaric oxygen therapy in experimental subcutaneous and pulmonary infections due to *Pseudomonas aeruginosa*
C. Luongo, F. Imperatore, M. G. Matera, G. Mangoni, M. Marmo, A. Baroni, P. Catalanotti, F. Rossi, and *A. Filippeli* 21

Review
Immune function of hyperbaric environments, diving, and decompression
I. Brenner, R. J. Shephard, and *P. N. Shek* 27

Case Report
Hyperoxic myopia in a closed-circuit mixed-gas scuba diver
F. K. Butler, Jr., E. White, and *M. Twa* 41

Letters
Incidence of carbon monoxide poisoning in the United States
N. B. Hampson 47
Comment of risk of decompression sickness with patent foramen ovale
D. W. Brown 49
Author's response
A. A. Bove 49

Abstracts
From current literature 51
French translations 56

Number 2, Summer 1999

Editorial
Pregnancy and hypoxia
T. R. Moore 59

Electroencephalography and magnetic resonance imaging after diving and decompression incidents: a controlled study
S. A. Sipinen, J. Ahovuo, and *J.-P. Halonen* 61
Simulated airplane flight increases plasma lactate in fetal rabbits
B. Schumacher, G. L. Olson, G. R. Saade, C.-N. Ou, T. E. Sutton, K. J. Moise, Jr., and *C. E. Fife* 67

Glutathione in the cellular defense of human lung cells exposed to hyperoxia and high pressure
R. Djurhuus, A. M. Svardal, and *E. Thorsen* 75
Effect of hyperbaric conditions on plasma stress hormone levels and endothelial-1
V. Lund, E. Kentala, H. Scheinin, J. Klossner, P. Koskinen, and *J. Jalonen* 87
Effect of caffeine consumption on tissue oxygen levels during hyperbaric oxygen treatment
M. Stephens, M. Frey, S. Mohler, H. Khamis, R. Penne, J. Bishop, and *A. Bowden* 93
Attenuation of brain hyperbaric oxygen toxicity by fasting is not related to ketosis
M. Chavko, J. C. Braisted, and *A. L. Harabin* 99
Effect of the anti-motion-sickness medication cinnarizine on central nervous system oxygen toxicity
R. Arieli, A. Shupak, B. Shachal, A. Shenedrey, O. Ertracht, and *G. Rashkovan* 105

Review
Physiologic and biochemical monitoring during hyperbaric oxygenation: a review
G. G. Rogatsky, E. G. Shifrin, and *A. Mayevsky* 111

Abstracts
From current literature 123
French translations 131
Spanish translations 133

Number 3, Fall 1999

Subacute effects of inspiratory resistive loading and head-out water immersion on pulmonary function
E. Thorsen, M. Skogstad, and *J. W. Reed* 137
Effects of repeated apneas on apneic time and diving response in non-divers
E. Schagatay, M. van Kampen, and *J Andersson* 143
Cardiac and humoral changes induced by recreational scuba diving
C. Marabotti, F. Chiesa, A. Scalzini, F. Antonellli, R. Lari, C. Franchini, and *P. G. Data* 151
Oxidative stress during a 3.5-hour exposure to 120 kPa(a) PO_2 in human divers
S. E. Bearden, S. N. Cheuvront, T. A. Ring, and *E. M. Haymes* 159
Effect of hyperbaric oxygenation treatment on lengthened callus
T. Kitakoji, S. Takashi, Y. Ono, T. Hattori, H. Takahashi, and *H. Iwata* 165
Therapy with hyperbaric oxygen and cefazolin for experimental osteomyelitis due to *Staphylococcus aureus* in rats
V. Mendel, B. Reichert, H.-J. Simanowski, and *H.-Ch. Scholz* 169

Review

A review of selected seafood poisonings
R. F. Clark, S. R. Williams, S. P. Nordt, and *A. S. Manoguerra* 175

Abstracts

From current literature 185
French translations 206
Spanish translations 209

No. 4, Winter 1999

Spirometric indices and the risk of pulmonary barotrauma in submarine escape training
P. J. Benton, T. J. R. Francis, and *R. J. Pethybridge* 213
Effects of hyperbaric oxygen on aerobic performance in a normobaric environment
J. M. McGavock, J. L. Lecomte, J. S. Delaney, V. J. Lacroix, P. Hardy, and *D. L. Montgomery* 219

F. Pott, P. Westergaard, J. Mortensen, and *E. C. Jansen* 225
Voluntary breath holding affects spontaneous brain activity measured by megnetoencephalography
N. A. M. Schellart and *D. Reits* 229
Effects of hyperbaric oxygen therapy on children with spastic diplegic cerebral palsy: a pilot project
D. Montgomery, J. Goldberg, M. Amar, V. Lacroix, J. Lecomte, J. Lambert, M. Vanasse, and *P. Marois* 235
Risk factors for symptomatic otic and sinus barotrauma in a multiplace hyperbaric chamber
D. T. Fitzpatrick, B. A. Franck, K. T. Mason, and *S. G. Shannon* 243
Effect of anti-C5a antibody on blood–lung and blood–brain barrier in rabbits after decompression
A. Hjelde, A. O. Brubakk, K. Bergh, V. Videm, and *A.-L. Ustad* 249

Case Reports

Infraorbital hypesthesia after maxillary sinus harotrauma
F. K. Butler and *A. A. Bove* 257
Noise-induced neurologic disturbances in divers exposed to intense water-borne sound: two case reports
C. C. Steevens, K. L. Russell, M. E. Knafelc, P. F. Smith, E. W. Hopkins, and *J. B. Clark* 261

Letter

Hyperbaric oxygen: A plea for uniform nomenclature
N. B. Hampson 267

Abstracts
